BROOKFIELD, January 12, 1855.

Prof. Woon—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff, and a co sta it tendency to itching, with which I have been troubled from my childhood, and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure and profit.

Yours, truly,

J. K. HRAGG.

J. K. BRAGG.

DEAR SIE: I am doing an extensive travel in the west and south-western States, as a General Agent for Adams' American Liniment, and would be the state of the western and the state of the semigroup of the semigr Agent for Adams' American Liniment, and would be glad if you would favor me with a consignment of Prof. Wood's Hair Restorative, as I feel assured that I can introduce it in many places where it is not known, as my own head is a living testimony of its valuable properties in restoring the hair to its natural color. I am forly years old, and my hair was almost white, but after using three half-pint bottles, my hair is as beautiful auburn as it was at eighteen, and much improved in appearance, and I would not be without a bottle on head, for the price of ten. I should be glad to attend to any matter that is connected with the Hair Restorative. I have been for thirteen years engaged in the same business, and will be glad to hear from you soon. My address is Paris, Tenn.

Yours, Respectfully, WM. B. BCOME.
As some think the original Restorative contain ing sediment, was better than the clarified or clear we will notify all that hereafter we will put up and keep constantly on hand both that which is clear, and that which contains sediment, thence dealers and others are requested to specify which they desire.
